You Win; We Win

Working with Truven Health is an investment in yourself as well as the future of healthcare.

Truven Health Analytics delivers unbiased information, analytic tools, benchmarks, and services to the healthcare industry. Hospitals, government agencies, employers, health plans, clinicians, and pharmaceutical and medical device companies have relied on us for more than 30 years. We combine our deep clinical, financial, and healthcare management expertise with innovative technology platforms and information assets to make healthcare better by collaborating with our customers to uncover and realize opportunities for improving quality, efficiency, and outcomes.

Every day, Truven Health employees work to help our customers make a difference in healthcare. A career at Truven Health is your opportunity to positively impact millions of lives by helping to shape the future of healthcare. You will be a part of solving one of the greatest challenges of our generation — how to improve the quality and lower the cost of healthcare.

Join a culture focused on results, recognition, and reward. You will be empowered to design a career around your strengths and interests. This is your opportunity to work with exceptional colleagues and leaders who have foresight, expertise, and integrity. Join an environment that will inspire you to expect the most of yourself and your career by harnessing the focus of our core values:

- Perform with Excellence
- Promote Business Growth and Personal Development
- Partner with customers
- Protect the Confidentiality, Integrity, and Availability of the information in our care

So what do you say, feel like helping someone do great things?

The continually expanding role of big data and data analytics throughout healthcare creates opportunities to develop new analytic solutions to meet emerging market needs, and expand our supporting products to meet clients' evolving needs. Our solutions and services provide career opportunities focused on efforts to reduce annual waste throughout US healthcare.

Build and Support Our Partnerships:

Clinicians

Provide drug reference information linked to real time surveillance to clinicians in hospitals.

Employers

Assisting employers in improving healthcare costs and workforce health and productivity.

Government

Work with agencies to control costs, ensure access to high quality healthcare services, incorporating advanced big data analytic strategies.

Health Plans

Enable health plan providers to work with employers in identifying tools that proactively manage high risk patients and implement consumer-directed programs. Tools that deliver the information consumers need to make accountable choices.

Hospitals

Assist hospitals in improving efficiency and effectiveness through benchmarks and strategies to understand trends, and manage change.

Pharma

Carry out independent studies for pharmaceutical companies on comparative effectiveness and outcomes relating to their drugs.

Develop and Maintain Our Solutions:

Patient Care

Clinical and intelligent evidence solutions combine real-time patient data with reference information to provide point of care decision support.

Payment Integrity & Compliance
Payment integrity solutions support clients to reduce fraud, waste and abuse.

Population Health and Cost Analysis
Flagship solutions that include Advantage Suite and Consumer Advantage products that integrate and analyze healthcare data relating to utilization, patient characteristics and costs associated with a population.

Hospital Performance Management
Solutions that help care delivery organizations track, measure and improve performance across the core functions of the hospital, including operational / financial, marketing and planning, and clinical / quality.

Research

Market analysis/claims management and research solutions provide a broad, up-to-date picture of treatment patterns and costs by tracking detailed information about various aspects of care for patients.
