

# Healthcare Engineering & Patient Safety Symposium

Monday, September 28th  
5 – 7:30 p.m.

North Campus Research Complex (NCRC)  
Building 18, Dining Hall & Adjacent Hallway

Join us to learn more about how the Center for Healthcare Engineering and Patient Safety (CHEPS) is improving the safety and quality of healthcare delivery by identifying, fostering, and promoting collaborative projects across the University.

Posters and presentations will represent collaborations between:

- Engineering
- Medical School
- School of Public Health
- School of Nursing
- UMHS
- and more...

*"I think it's just the start. I think the big thing is to get a dialogue going between both the clinicians and other healthcare folks and the engineering side of the house... in a more successful way than we probably have in the past."*

- Jim Bagian, Director of CHEPS

## 5:00 – 7:30

The symposium will feature live music by a classical trio of U of M students & alumni, refreshments, posters from units & researchers across the university & beyond, and networking.

Attendees will have a chance to attend brief presentations at each poster and participate in games and simulations demonstrating research projects. They will also be invited to vote for the people's choice award in our poster competition.

## 5:30 welcome and remarks

Jim Bagian, CHEPS Director

Amy Cohn, CHEPS Associate Director

## 7:15 awards, prizes, and closing remarks

Poster award, raffle prizes, and more...
