

Healthcare Engineering & Patient Safety Symposium

Monday, September 26th

5 – 7:30 p.m.

Robert H. Lurie Engineering Center
3rd & 4th Floors

Please note this is a different location than last year.

Join us to learn more about how the Center for Healthcare Engineering and Patient Safety (CHEPS) is improving the safety and quality of healthcare delivery by identifying, fostering, and promoting collaborative projects across the University.

Posters and presentations will represent collaborations between:

- Engineering
- Medical School
- School of Public Health
- School of Nursing
- UMHS
- and more...

"I think it's just the start. I think the big thing is to get a dialogue going between both the clinicians and other healthcare folks and the engineering side of the house... in a more successful way than we probably have in the past."

- Jim Bagian, Director of CHEPS

The symposium will feature live music, refreshments, posters from units and researchers across the university and beyond, as well as networking.

6:00 remarks

7:15 awards, prizes, and closing remarks

To RSVP go to: <http://cheps.engin.umich.edu/symposium-rsvp/>
