Jim Molloy

- Executive Vice President
- Chief Financial Officer
- Treasurer

Mike Hulefeld

- President
- Chief Operating Officer

George Loss, Jr.

- System Vice President
- Chief Clinical Transformation and Strategy Officer

Delivering healthcare in rural communities presents many unique challenges, especially when compared to care provided at large academic medical centers like Michigan Medicine.

This seminar will explore the complexities of resource limitations, transportation infrastructure, specialty care, and more.

Join us to gain valuable insights into rural healthcare delivery as we strive to understand community-specific needs and learn about innovative solutions for equitable healthcare access.
